

ONPOINTTM

- PROOF OF LOCATION
- PROOF OF ATTENDANCE
- 4D COMPLIANCE AT SCALE

You have a chip in your biometric passport. We make such passports for geolocations, commercial premises, auditoria, you name it. Internet-connected mobile device can collect a proof of attendance. No personal data involved. No satellite – no mains power required. Cryptographically unspoofable, clone-resistant, and highly available.

Industry and Public
service tracking across sparse fields and facilities

Education and Training
attendance
